

VANDERBILT TRANSPLANT NURSE PRACTITIONER SYMPOSIUM

VANDERBILT TRANSPLANT CENTER

Presents the 15th Annual

VANDERBILT TRANSPLANT NURSE PRACTITIONER SYMPOSIUM

OCTOBER 7-8, 2019

HILTON NASHVILLE DOWNTOWN

Vanderbilt Transplant Center has long been recognized as one of the nation's premiere and largest centers in transplantation. Vanderbilt is the 6th largest comprehensive transplant center in the United States, performing over 500 organ transplants in 2018 with both a competitive nurse practitioner fellowship and a pharmacy residency.

We are committed to providing patients compassionate and individualized care that combines state-of-the-art technology with extensive interdisciplinary experience. As part of a major research institution, we partner with our world-renowned researchers to provide our patients advanced therapies and resources, including access to rare clinical trials and technologies that improve safety and outcomes. Our mission is to provide end-stage organ failure patients an opportunity to lead an extraordinary life.

VANDERBILT TRANSPLANT CENTER PROGRAMS INCLUDE:

Kidney/Pancreas • Liver • Heart • Lung • Heart/Lung • Bone Marrow/Stem Cell

VANDERBILT TRANSPLANT NURSE PRACTITIONER SYMPOSIUM

OVERVIEW

As the number of Nurse Practitioners caring for transplant patients continues to increase, their role focusing on acute/chronic illness with emphasis on preventative maintenance has become vital to the lifelong care of transplant patients and their unique needs. This conference is designed to address the complexities of managing the transplant patient within the scope of practice of the Nurse Practitioner. In addition, Vanderbilt prides itself in providing interprofessional education as the cornerstone to provide the interprofessional collaboration necessary for comprehensive care of the transplant patient. This year's agenda will include nurse practitioner, pharmacist and physician speakers with new topics related to Non-Vaccination, Access to Care, Pediatric transplantation break-out sessions, as well as a return of updated topics such as Diabetes, Sensitized Patients, Pharmacology updates, and non-organ specific guidelines for assessment of transplant patients and diagnosis and treatment of common comorbidities and more.

WHO SHOULD ATTEND

- Nurse Practitioners
- Transplant Coordinators
- Advanced Practice Nurses
- Physician Assistants
- Transplant Registered Nurses
