

**Disclosures - ASTS 13th Annual State of the Art Winter Symposium, January 31-February 3, 2013, Miami FL**

ASTS ensures that all CME certified activities are fair, valid, balanced, scientifically rigorous and free of commercial bias - designed to promote professional performance, competency, and improved patient outcome.

The following faculty/presenters/moderators/panelish/planners have *no relevant financial relationships* with respect to this activity. The ASTS has reviewed all disclosures and resolved or managed all identified conflicts of interest, as applicable. All relevant potential conflicts of interest that are identified and are vetted through a Conflict of Interest process that includes appropriate peer review either through the CME committee liaison, and/or chairs or co-chair for fair balance, scientific objectivity and validity, patient care and safety recommendations.

Last Name	First Name	Institution	Role

Shaked	Abraham	University of Pennsylvania	Speaker
Stewart	Zoe	University of Iowa Hospitals and Clinics	Moderator
Stewart	Zoe	University of Iowa Hospitals and Clinics	Moderator
Stock	Peter	University of California - San Francisco	Moderator, Speaker
Shapiro	Ron	University of Pittsburgh Medical Center	Speaker
Sung	Randy	University of Michigan Health System	Speaker, Panelist
Testa	Giuliano	Baylor University Medical Center	Speaker
Visone	Jamison	ASTS	Staff
Veech	Annette	Washington University in St. Louis	Speaker, Panelist
Wertheim	Jason	Northwestern Memorial Hospital	Speaker
Woodside	Ken	University Hospitals Case Medical Center	Moderator

The following faculty for this activity reported relevant financial relationships. Their presentations were peer-reviewed and concluded that all potential conflict of interest were managed and resolved.

Last	First	Institutions	Role	Disclosures
Axelrod	David	Dartmouth Medical School Mount Sinai School of Medicine - RMTI	Speaker Speaker	Stock Shareholder relationship with Xynthisis, LLC; Owner. Health care consulting firm Honorarium relationship with Organ Recovery Systems; Travel grants totaling \$10,000.00 for academic presentations at international meetings.
Goldstein	Michael	Univ of Wisconsin Hosp & Clinic	Panelist, Speaker, Moderator	Grants/Research Support relationship with JDRF; July 2012 2 years; 10% grant effort; Employee relationship with Regenerative Medical Solutions; January 2012 to present; \$75,000 per year for CSO; Grants/Research Support relationship with Regenerative Medical Solutions; January 2012 to March 2013; 5% grant effort; Other Financial or Material Support relationship with none; none; Other Financial or Material Support relationship with none; none; Other Financial or Material Support relationship with none; none; Other Financial or Material Support relationship with none; none; Other Financial or Material Support relationship with none; none; Other Financial or Material Support relationship with none; none
Odorico	Jon	Mayo Clinic	Speaker	Grants/Research Support relationship with Millennium Pharma; No value to me personally, \$300,000 research. 2008-present; Grants/Research Support relationship with Alexion Pharma; NO value to me personally. \$1.2 million for clinical trials 2008-present
Stegall Woodle	Mark E. Steve	Univ of Cincinnati Coll of Med	Speaker	Grants/Research Support relationship with Pfizer, Millennium, Sanofi, BMS

## **American Society of Transplant Surgeons Disclosure Policy**

It is the policy of ASTS that individuals in a position to influence/control content of a CME activity disclose all or apparent conflicts of interest(s). ASTS committee members, faculty, staff and other individuals involved in the planning of a CME activity are required to disclose to learners relevant financial relationship(s) that have occurred within the last 12 months of the activity with any commercial interest(s) whose products or services are discussed in the CME content. Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest,), or other financial benefit. Financial benefits are associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities for which remuneration is received or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner. If there are no relevant financial disclosures, the learners must be informed that there are *no* relevant financial disclosures or he/she has nothing to disclose.

The intent of this disclosure is not to prevent faculty with relevant financial relationships from planning or delivery of content, but rather to provide learners with information that allows them to make their own judgments. It remains for learners to determine whether financial interests or relationships may influence the activity. All relevant potential conflicts of interest that are identified and are vetted through a process that includes appropriate peer review by the CME committee liaison, and/or chairs or co-chair for fair balance, scientific objectivity and validity, patient care and safety recommendations.

Because the review, identification, and resolution process must take place prior to the activity, all disclosure information must be submitted by the stated due date in order to ensure participation. Failure to disclose within the necessary timeframe will result in disqualification to participate.

### **Unlabeled/Unapproved use of drugs:**

ASTS requires that all faculty presenters disclose their intent to discuss any unlabeled/unapproved uses of drugs and/or devices during their presentations.

### **Conflict of Interest Resolution process**

A conflict of interest (COI) is present when a planner, faculty speaker or author has **both** a current financial relationship with a commercial interest **and** the opportunity to affect content relevant to products or services of that commercial interest. If it is determined that planners, presenters or authors have financial relationships that create conflict of interest, the COI will be resolved before the activity. The COI review will be conducted by peer-review by the CME Committee Liaison, Chair, Co-chairs, and/or faculty member who does not have a conflict of interest to review the program for balance and absence of bias.
