

2023 Fellowship Certificate of Completion Request Form:

Upon completion of a two-year abdominal transplant fellowship at an accredited Abdominal Transplant Fellowship Training Program, this form must be completed for review by the Transplant Accreditation & Certification Council (TACC). Fellows are only eligible to receive a Certificate of Completion (COC) in the organ specialties in which they trained and for which a program is accredited to train. The completed form should be uploaded with the fellows completed online [certificate of completion submission](#).

Name of Fellow:
Institution:
Program Director:
Dates of Fellowship:

Fellowship Summary:

<i>Procedure</i>	<i>Total Number in Principal Role</i>	<i>Total Number in Participant Role</i>	<i>Requirement for Certificate</i>
Kidney Transplants			40
Living Donor Nephrectomy			12
Liver Transplants			45
Pancreas Transplants			10
Pancreas Back Table Preparation			10
Pancreas Procurements			10
Intestine Transplants			10
Hemihepatectomies			15
Biliary Procedures			15
Non-Transplant Major Pancreatic Procedures			15
Multi-Organ Procurements			25

☐ I am submitting the adjacent volume summary for review by the Fellowship Training Committee. I understand that "Principal Role" does not suggest that an Attending Surgeon was not present during the procedure. The Fellow can have played a principal role when working together with a Staff Surgeon. "Principal Role" does require that the Fellow was present for the vast majority of the procedure and only one Fellow can be considered to have played the principal role for any one procedure.

Fellowship Training Program Director Approval:

☐ I verify that the above-named fellow has successfully completed a two-year fellowship at this institution and is eligible to receive an ASTS certificate of completion if he/she has met the prescribed ASTS requirements.

As a reminder, fellows are only eligible to receive a Certificate of Completion (COC) in the organ specialties in which they trained and for which a program is accredited to train. I recommend that the fellow be awarded a certificate of completion in:

☐ Kidney ☐ Liver ☐ Pancreas ☐ Intestine ☐ Hepatobiliary ☐ Hepatopancreatobiliary
