10TH ANNUAL TRANSPLANT QUALITY INSTITUTE

OCTOBER 1-4, 2024

Announcing exciting changes
to TQI as we celebrate our
10th anniversary!

QUALITY

SCIENTIFIC
REGISTRY OF
TRANSPLANT
RECIPIENTS

Pre-Conference Meeting

October 1, 2024

Presented by SRTR Faculty

The first TQI-SRTR meeting dedicated to the review of the data, metrics, and tools made available by the Scientific Registry of Transplant Recipients (SRTR) to support quality monitoring within your transplant program. Topics will include:

- Current trends in our nation's transplant system.
- SRTR reports
- In-depth review of regulatory metrics, including pretransplant mortality, offer acceptance, and posttransplant outcomes.
- How risk-tolerance impacts metrics, how risk adjustment impacts program evaluations
- CUSUMS for near-real-time monitoring of trends in outcomes.
- SRTR tools for performing subgroup analyses.
- OPO regulatory metrics and the tension between OPO performance and transplant program performance

Main TQI Conference

October 2-4, 2024

This 3-day main TQI conference is designed for the new and experienced transplant and quality professionals to share and expand their knowledge with colleagues and transplant experts. In addition to updates from OPTN, SRTR, HRSA, and MPSC on the current priorities and drivers of change in our field, 26 abstracts from our community will be presented to share effective strategies to improve compliance, quality and safety in transplant programs.

Virtual Foundational Concepts Course

This virtual Foundational Concepts Course is for those new to transplant quality, or those seeking a refresher on the basics of transplant regulations and QAPI.

The complete program agenda and list of speakers will be announced soon, along with registration and hotel information.
