

Mock Medicare Survey (MMS)

Seasoned transplant professionals and regulatory experts are available to provide transplant centers with a mock audit in advance of a Medicare audit. Hand CMS your corrective action plan the day they arrive. Not only will they be impressed, CMS will spend less time on-site minimizing disruption to your program! The Mock survey includes:

- Review policies and procedures
- On-site chart review
- On-site interviews
- On-site debrief
- Written report of findings

Testimonials

“The Mock Medicare Survey was absolutely wonderful and tremendously helpful to me, my staff and the organization. I cannot stress enough how amazing the surveyors were. They were a huge breath of fresh air for me and helped me out greatly as the Transplant Administrator within my organization. It was EXACTLY what I needed for my program. I hope that other centers invest in this amazing opportunity that ASTS is offering.”

Michelle Roberts, RN, BSN, CCRN, PHN, MBA, Scripps Green Hospital

“The ASTS Mock Medicare Survey at our center was very helpful in ways I wouldn’t have guessed. It really helped the staff and doctors that were being interviewed have a sense of what to expect, relieved anxiety, and we were able to help them think through any poor responses. CMS came a week later, and ended up leaving two days earlier than scheduled because they said it was such an efficient process we’d arranged. The CMS audit went very well.”

Glenn Half, MD, Director, Transplant Center, University of Texas
